Cable Actuator GM #15961611 \$550.32

Switch assy GM #15688635 \$30.75

switch grey actuator GM #10218778 \$17.15
(Controls the Auto Park light on Dash)

Hose GM #15961615 \$83.37

Here's some more info on the green switch that goes into further detail.

GM part #15961566 for the Green pressure switch and 15034355 for the brown one if so equipped (may be on later workhorse chassis)..that starts and stops the pump...this should be kept on board for a spare...since it's failure rate is very high and is most always the cause.

The thread is a 3/8 24 - - a straight thread, not tapered like a pipe thread.

The switch closes at 1200 psi and opens at 1600 psi

Gm part #10218778 is the pressure switch that turns on the auto park light....when the tranny is in park...
